Enduro Shield

DRIVING REAL COST SAVINGS

EnduroShield is the smart choice for long lasting protection to hotel bathrooms. Protecting from staining and etching, while also transforming the surface into like that of a non-stick fry pan. EnduroShield makes cleaning easier every time and significantly reduces operating costs. The permanent*, ultra-thin, transparent coating is ideal for:

- > Glass shower units
- > Wall or floor tiles and grout
- > Stainless steel or chrome tap ware and accessories

NEW BUILD & ONSITE APPLICATIONS

One single application lasts more than 10 years on new glass or 5+ years on pre-installed surfaces. The coating provides a reduction in both the frequency and time spent cleaning.

For new projects, many of the largest glass fabricators around the globe already partner with EnduroShield, making the coating easy to specify as a pre-treated order during construction.

For existing operational locations the coating can be applied by certified applicators as a service for as little as \$3.00 per sq ft - less than \$50 for a standard single piece glass unit. With the maintenance cost savings alone the coating pays for itself in a matter of months!

*EnduroShield is independently certified for performance and durability to simulate a lifetime of 10 years on interior and exterior use by one of the most prestigious, global testing agencies TÜV Rhienland, Germany.

WHY ENDUROSHIELD?

EnduroShield has operations in over 50 countries and has already worked with a variety of hotels based over 5 continents. No matter the location of your property EnduroShield has you covered.

Applying EnduroShield to your project derives significant benefits, including:

- > Minimizing the cleaning time for each shower screen after guest check out so ongoing maintenance costs are measurably reduced.
- > A reduction in the need for harsh chemical cleaners, aiding environmental responsibility programs, and again saving in maintenance costs.
- > Shower screens will remain in premium condition for each new guest. With EnduroShield you can rely on fresh aesthetics for a positive guest experience over the average life of a bathroom fit out.

Developed with cutting edge nanotechnology, EnduroShield is applied by many of the world's leading glass companies. The non-stick coating is being utilized by major property developers around the world to make light work of cleaning. Incorporating EnduroShield on your property will reduce costs everyday.

SAN YSIDRO RANCH - MONTECITO CA, USA

Forbes #1 ranked hotel in North America is using EnduroShield.

EnduroShield's high performance coating was applied in-situ to spa areas, glass shower units and tiled surfaces throughout this luxury hotel to protect against mineral deposits from frequent water use, shampoo chemicals, soaps, body fats, and rigorous cleaning. EnduroShield provides a real cost saving on cleaning as surfaces stay noticeably cleaner between cleans thanks to the robust protective treatment.

"The coating is great on the glass showers, that was what we originally reviewed. But on tiles it really saves time and doesn't make the surface slippery!"

San Ysidro Ranch**

KIMPTON SEAFIRE RESORT & SPA - CAYMAN ISLANDS

Featured on Forbes "20 Most Anticipated Hotels of 2016".

Located on Seven Mile Beach, Grand Cayman, this boutique hotel has 265 shower units coated with EnduroShield. Many of which have a striking acid etched design, showcasing the versatility of the EnduroShield protective treatment, which can be used on both clear and textured glass pieces.

HOTEL RAJ - BANGALORE, INDIA

Raj is one of India's most prestigious hotel brands, specializing in affordable luxury. EnduroShield was chosen to protect the shower enclosures at Hotel Raj in Bangalore to prevent staining and etching well into the future and address daily cleaning requirements which can be challenging in humid environments.

EnduroShield®

HOLIDAY INN DOWNTOWN - TORONTO CANADA

The Holiday Inn Toronto Downtown Centre is the largest Holiday Inn in Canada. The hotel features luxurious guest rooms and suites offering the finest in accommodation. The hotel is committed to providing high quality finishes to maintain an excellent reputation among travellers and business guests. As part of this commitment, EnduroShield has been utilized on the shower glass of all 401 rooms in the hotel. The EnduroShield coating assists in protecting the surface by sealing the porosity of the glass. The superior protection against staining, etching and general deterioration from soap scum is still performing after 10 years.

MARRIOTT AT THE CONVENTION CENTER - AUGUSTA GA, USA

The Augusta Marriott at the Convention Center defines a new standard in comfort and style. The spa-inspired bathrooms feature glass-walled showers, all of which have been coated with the EnduroShield easy clean treatment for glass. A trial in two guest rooms lead to the coating being specified for all showers, highlighting the time saving benefits of EnduroShield.

"We learnt how untreated glass is a real issue. Now the glass has been treated with EnduroShield it has created an environment which provides ideal results, saving us noticeable time everyday."

GOLDEN NUGGET HOTEL & CASINO - LAS VEGAS NV, USA

The Golden Nugget was originally built in 1946. A series of additions saw a 500 room, \$150 million hotel tower extension open in 2009. All of the showers were factory treated with EnduroShield to reduce cleaning time and maintenance costs. The EnduroShield coating is still performing to this day.

IBIS HOTELS - PAULISTA & BELO HORIZONTE, BRAZIL

These Ibis hotels have had all their showers treated with EnduroShield. Ibis Paulista had EnduroShield installed during bathroom renovations, and showers at Ibis Belo Horizonte were treated by the shower manufacturer. These budget friendly hotels are able to reduce ongoing housekeeping costs as a result.

RADISSON HOTEL & SUITES - SYDNEY, AUSTRALIA

As part of a refit in 2009, the 4½ star boutique hotel in central Sydney had all new shower screens installed and protected with EnduroShield's easy clean treatment. In a maintenance intense industry such as hospitality, reductions in cleaning time and expenditure are crucial in lowering overheads.

HILTON HOTELS - HAWAII & OAH'U, USA

The renowned international hotel chain has specified EnduroShield for all its showers in the 450 room expansion of Hilton Oah'u based on the direct recommendation from the Hilton Suites on the main island of Hawaii. Confirming their fantastic experience with EnduroShield over the years it's been applied at that location.
