## LOWE'S OF WAIPAHU, HAWAII

Lowe's is the second largest home improvement retailer worldwide with more than 1,725 stores in the USA, Canada and Mexico. From a small hardware store founded in 1946, Lowe's now serves more than 15 million customers a week, employs 234,000 staff and is ranked 49 on the FORTUNE® 500.

With four stores in Hawaii alone, one of Lowe's most picturesque locations is the Waipahu store, located just 20 minutes drive from downtown Honolulu. The store has recently undergone extensive renovations and costly glass replacement was one option that Lowe's has avoided thanks to EnduroShield.

### APPLICATION

The Lowe's Waipahu store features a large garden display, showcasing beautiful native flowers below a long bay window. The flowers are watered several times a day and due to the window's close proximity the glass got so much overspray that eventually the buildup of mineral scaling became so extreme the view through the glass was almost totally obscured.

One of EnduroShield's Hawaiian Certified Applicators approached Lowe's explaining the cost saving benefits of EnduroShield® Glass Restoration and Protection versus glass replacement. A test area was chosen for a trial restoration and the results were so impressive that Lowe's management chose EnduroShield over replacing the glass. The team was able to completely remove the mineral scaling, polishing the glass back to restore its original luster.

EnduroShield® Protective Coating was then applied to protect the restored glass against future staining and to reduce ongoing maintenance time and costs. EnduroShield® uses state-of-the-art nanotechnology to create a permanent\* coating and seal the porosity of the glass, reducing cleaning time and effort.

### RESULT

The glass now looks almost as good as the day it was installed, all at a fraction of the cost of replacement. EnduroShield will protect the glass from subsequent mineral scaling well into the future. EnduroShield comes complete with a 10 year limited warranty, is environmentally friendly and does not require any revitalizing products to retain the warranty.

\*Independently tested and certified for durability to simulate a lifetime of 10 years on interior and exterior use by TÜV Rheinland, Germany.
